# 205 MW Wind Power Plant Equipment

**Rev. 0 - August - 2024**

## Overview:

We are offering a prime opportunity to acquire a complete 205 MW wind power plant featuring state-of-the-art Nordex Delta4000 N149/4.0-4.5 wind turbines. This brand-new plant, which has never been operational, is stored under optimal conditions and is available for immediate relocation. With a maximum capacity of 205 MW and all components under active factory warranty, this asset presents an excellent investment for those looking to expand their renewable energy portfolio.

## Asset Overview:

- Location: Free Trade Zone, Colombia
- Availability: June 2024
- Total Capacity: 205 MW
- Technology: Nordex Delta4000 N149/4.0-4.5 Wind Turbines
- Quantity: 41 Turbines

## Key Highlights:

- **Condition:** Brand new, never mounted, stored under optimal conditions.
- **Warranty:** Factory warranty still active on all turbines and associated components.
- **Turbine Specifications:**
  - Nominal Power: 4.0-4.5 MW per turbine, expandable to 5.0 MW.
  - Rotor Diameter: 149 meters
  - Hub Height: 104.7 meters
  - Certification: Compliant with IEC 61400-1 standards.
- **Substation & Grid Connection:**
  - Grid Connection Voltage: 220 kV
  - Substation Components: Includes step-up transformers, medium-voltage switchgear, and control systems.
  - Ready for immediate relocation and installation.

## **Investment Opportunity:**

This fully intact wind power plant offers an exceptional investment opportunity with brand-new equipment and a maximum capacity of 205 MW. Located in a strategic free trade zone in Colombia, this asset is primed for immediate deployment and operation in any global market.

## **Additional Information and Next Steps**

We invite interested investors to contact us to discuss this promising investment opportunity in more detail.
